Because I Stubbed My Toe

Shawn Byous Capstone Press, 2014 32 pages

SUMMARY:

Have you ever had "one of those days," where from the moment you get out of bed things go wrong? That is what happens in, *Because I Stubbed My Toe*, our un-named main character stubs his toe just getting out of bed and scares the dog who scares the cat that jumps out the window and lands on the head of a passerby and things spiral from there. Everyone is affected by our main character stubbing his toe from an old man on a park bench, to young children in a bouncy house and animals in the zoo! But in the end he is glad he stubbed his toe.

You get out of bed and stub your toe on the chair; it scares your dog who in turn scares the cat so bad that he jumps out the window and lands on an innocent passerby. That person drops their ice cream cone and the troubles continue. This is a great book for teaching cause and effect to young children. It is also a great book for showing how we are all connected in this world. This is definitely a book that you must share with someone else, you cannot read it alone.

Two teachers had already quit that school year due to the behavior of the students in that class. The college officials convinced young teacher James Naismith to take the job. Once he walked into the gym, Mr. Naismith knew he was in trouble. There was no way he was going to keep the attention of this group without coming up with something different, something fast paced, and fun. Mr. Naismith tried football and soccer, but someone always got hurt. He knew he needed an activity that would prevent anyone from getting tackled. Then one morning shortly before Christmas, the young teacher had a brainstorm! With a soccer ball and a peach basket, he came up with a game that the students loved! Read this book to find out how the game of basketball was invented.

The Matchbox Diary

Paul Fleischman Candlewick Press, 2013 40 pages

SUMMARY:

The Matchbox Diary is a beautifully written and illustrated book that shares a grandfather's stories about his immigrant experiences as a young boy traveling from Italy to America and events he experiences in his new home. While waiting for the steamship to America, he had found matchboxes which he later used to begin his object diary. While he and his family traveled, he collected mementos to add to these tiny boxes. The grandfather now keeps these matchboxes in an old cigar box. When he tells his great-granddaughter to choose one item from his bookshop so he can tell her its story, she chooses the cigar box. He tells her this box holds his diary, but when they open it, she doesn't see a book with written words; instead she sees tiny little matchboxes. As they open and pull contents out of each tiny box, he shares stories about where he was when he first held the object—in Italy, on the ship, in America - and why that memento was so important to him. Objects as simple as an olive pit, a piece of macaroni, a bottle cap, sunflower seed shells, and torn pieces of newspapers remind him of stories to share.

Paul Fleischman creatively shares an immigrant's story through the eyes of a child. He highlights the importance of little things that have had great impact. He shares feelings of excitement, anticipation, fear, happiness, sadness, difficulties, and new experiences.

Bagram Ibatoulline has created wonderful illustrations that capture the essence of the stories. The illustrations are colorful while the grandfather and granddaughter are talking; then when the grandfather is telling his stories, the illustrations are black and white – much like old photographs in an aged scrapbook.

BOOKTALK:

As a child, I was absolutely terrified of the dark because I imagined all sorts of creatures that I was sure were hiding there. Laszlo is no different than I was or many, many other children everywhere. In Laszlo's house, he lives upstairs and the dark lives in the basement. Neither Laszlo nor the dark hardly ever venture out of their places. But one night, the dark visits Laszlo and asks him to come down into the basement. Laszlo was afraid of the dark in the basement, but he went down anyway. When he gets there, the dark gives him something wonderful and comforting that makes Laszlo stop being afraid of the dark. If you have ever been afraid of the dark, remember that the dark is not afraid of you, just as Laszlo learned in this wonderful book

about a common childhood fear entitled $\it The\ Dark$ by Lemony Snicket, illustrated by Jon Klassen.
