A

Dear SCASL Members,

I hope everyone is having a successful and exciting year in your Media Centers. We certainly have a lot going on in SCASL this year already. We have completed the two phases of the Keith Curry Lance Impact Study and plan some major publicity and promotion of these results. A press conference is planned as well as promotional materials, produced by our Advocacy and Public Awareness committees, to be shared statewide. Please be on the lookout for these at the beginning of the year and be

planning ways to share with our stakeholders the importance of our library media programs.

We are in our second year of awarding mini grants to provide funding for teacher/librarian presentations at SC educational conferences in order to advocate for our media programs. Last year we funded four of these and I would love to see all five grants awarded this year. Apply online at our Advocacy committee page on SCASL.net.

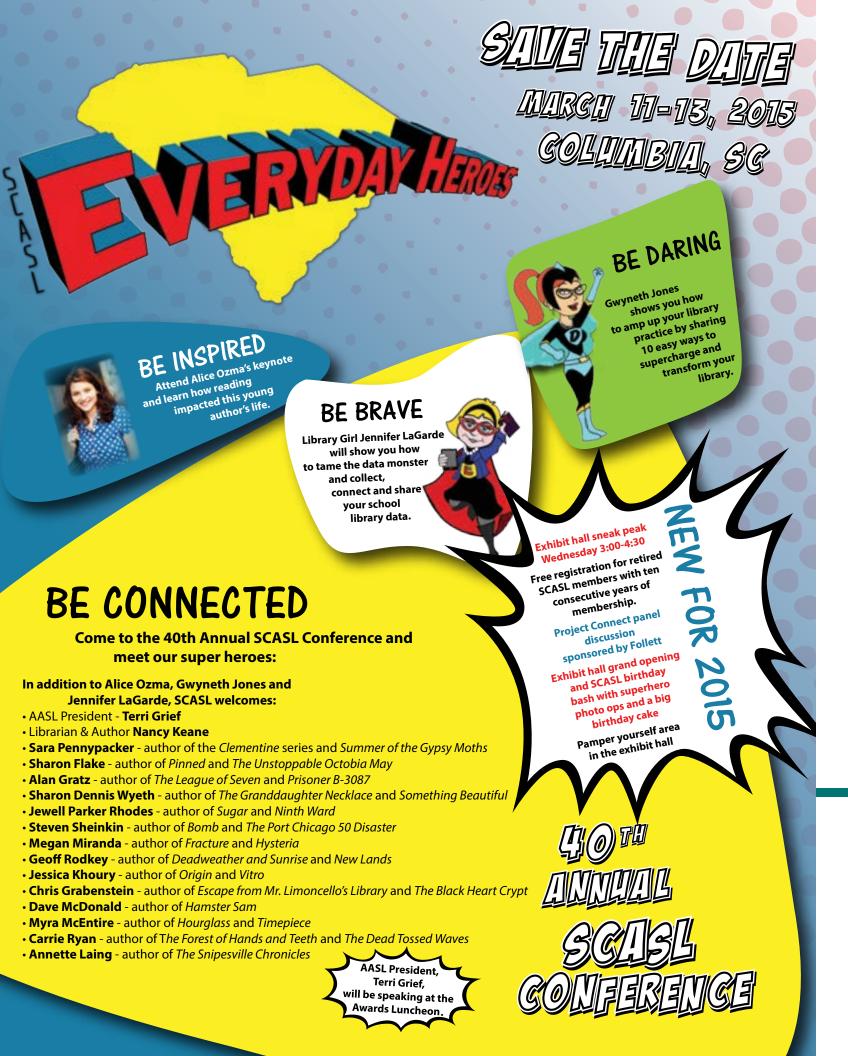

I hope you have been exploring and using our SCASL.net website. Check out our new Frequently Asked Questions page to quickly find out such things as, how to renew/join SCASL, how to volunteer, Book Award and Conference information as well as SCASL listserv information. We have a Regional News link now to help you keep up with what is going on in school libraries across the state. This page will be continually updated throughout the year with current news. You will also want to look at the Committee pages. They have been enhanced to give you up to date information of projects being worked on and who to contact for more information.

The Forums are a great place to go to share and solicit ideas. The Book Award forum has links to promotional brochures and power points for our SC Book Award program. The Technology forum has ideas for using technology in your media centers. Check out the SCASL MemberClicks forum for help in using our website more effectively and a place for Special and Independent schools to connect and share. Other forums can be added as we need additional information shared.

Our Information Technology committee is planning a drawing of our 30 most active SCASL website users at the conference in March and awarding a \$25 Amazon gift card. Make sure your name goes in that hat! We are committed to providing a dynamic website that provides you with the information you need.

Thanks for all you do for our students in South Carolina!

New South Carolina Book Awards Book Trailer Contest

Pat Wilcox, Librarian South Carolina Book Award Chair Shaw Heights Elementary

We are excited to announce that the SC Book Awards has added a brand new program: Book Trailers. This will be in addition to the existing Banner Contest. So break out your video cameras, boot up the computers, and fire up your students' imaginations; it is time for them to create book trailers for this year's award nominees.

Schools will be able to submit one entry per level represented at their school to the contest. If you have more than one group of students who would like to create a book trailer, this would be a good time to hold a video contest at your school with the winning entry the one selected for submission. Remember, if your students choose to create a live action book trailer,

you will need releases from their parents. The book trailers are to be fully student-created live action or animated (stopmotion) videos of no more than three minutes in length. The only non-student created image permitted is the book cover. Guidelines and the Rubric are available on the SCASL website in Forums.

There are resources on the web as well as apps that will help your students create their book trailers. Tools to use include: PhotoStory, Windows Movie maker, iMovie, Animoto and WeVideo to name only a few. There are examples of a variety of book trailers available on the internet created by students. If your students use iPads, there are also apps available such as iMovie, StopMotion, and GreenScreen. Remember a winning book trailer does not need to be an elaborate production. Sometimes simple can be much more effective.

ByLaws

Ever wondered why we operate the way we do?

Our bylaws define how we govern our organization. If you have any questions about our bylaws or want to suggest changes, please email Bylaws Chair, Susan McNair at scmcna@scdjj.net. Bylaws are linked on the SCASL webpage, under the Board of Directors, Bylaws.

Procedure for SCASL Bylaw Changes:

- Members send proposed changes to the Bylaws Chair (scmcna@scdjj.net) by January 5th, 2015.
- Bylaws Chair presents proposed changes to the Board of Directors at the January 17th Board Meeting.
- Board of Directors vote on the proposed changes.
- Approved changes are sent to the membership at least 30 days prior to the membership voting, which will occur at the Conference Business Meeting on Thursday, March 12th.

Intellectual Freedom Award 2015

The Intellectual Freedom Committee is calling for nominations for the 2015 Intellectual Freedom Award.

Do you know a school librarian that uses innovative or creative programming to raise awareness of students? First Amendment rights? Do you know a school librarian that has boldly opposed censorship in their school library media center, public library, or community? Do you know a school librarian that promotes intellectual freedom through quality library media center programming?

If so, recognize this individual by nominating her/him for the 2015 SC Intellectual Freedom Award. To nominate an individual, please include the following information:

- Your name, title, school, email and phone number.
- Nominee's name, title, school, email and phone number.
- Why does this nominee qualify for the award? (be sure to include details of related programs, services and advocacy)

The winner of this award receives the general adulation of her/his peers as well as a cash prize!

Nominations must be submitted by February 1, 2015.

Send nominations via email to Lorena Swetnam: lorena.gaviria@gmail.com

Milestones in American Education

1919

NEA and the American Legion meet to seek ways to generate public support for education.

1921

NEA and American Legion co-sponsor the first American Education Week.

1926

First SAT tests administered.

1935

Congress creates the Works Progress Administration resulting in the development of hundreds of new school buildings.

1939

Frank W. Cyr, a professor at Columbia University's Teachers College, sets the standard yellow for school buses.

1944

The G.I. Bill is enacted for World War II Veterans and 238,000 become teachers.

1945

Every state now has a pension program for teachers.

1946

The Truman Commission Report is issue in 1947 and recommends sweeping changes in higher education, which doubles college enrollments.

1954

Brown vs Board of Education passed ruling that "separate educational facilities are inherently unequal," overturning Plessy v. Ferguson.

1965

Project Head Start is initiated; the program continues to this day and is the longest-running anti-poverty program in the U.S.

1966

Making History ATA and NEA merge.

1968

Congress passes the Bilingual Education Act, also known as Title VII, a precursor for No Child Left Behind Act. Accreditation of Teacher education is created to set uniform standards for training America's teachers.

1958

Congress passes the National Defense Education Act—increasing funding for scientific research and science education.

1959

The first ACT Test is administered. Wisconsin wins nation's first statewide collective bargaining law for public employees.

1964

Civil Rights Act is passed. The Association for Children with Learning Disabilities, now Learning Disabilities Association of America is formed.

1965

Congress passes NEA-sponsored Elementary and Secondary Education Act (ESEA). The Higher **Education Act is introduced and includes Free** Application for Federal Student Aid (FAFSA). Shirley Chisholms, an African American educator, becomes the first African American woman to be elected to the U.S. Congress.

1972

Congress passes Title IX—prohibiting discrimination in all aspects of education based on gender.

1974

The Equal Educational Opportunity Act is passed.

1975

Congress passes the Education of All Handicapped Act—forerunner of today's Individuals with Disabilities Education Act (IDEA).

1980

Congress creates the US Department of Education.

1983

US Department of Education releases "A Nation at Risk"—calling for sweeping reforms in public education

1986

NEA member and teacher Christa McAuliffe selected to be part of America's teacher in space program— dies in the Challenger disaster.

1991

The smart board (interactive white board) is introduced.

1994

The Improving America's Schools Act (IASA) is signed into law by President Clinton. It reauthorizes the ESEA of 1965.

1998

NEA's Read Across America is created to encourage adults to take an active role in reading to youngsters on a regular basis.

2001

Congress passes the No Child Left Behind Act—a reauthorization of 1965's Elementary and Secondary Education Act (ESEA). The Development, Relief, and Education for Alien Minors (DREAM) Act is introduced.

2004

H.R 1350 The Individuals with Disabilities Improvement Act (IDEA 2004), reauthorizes and modifies IDEA.

2007

NEA celebrates its 150th Anniversary. Congress passes the Labor-HHS- Education appropriation bill which includes reauthorization of the No Child Left Behind Act

2011

Wisconsin legislature passes a bill removing most collective-bargaining rights from many public employees, including teachers.

"Milestones in American Education" retrieved from http://www.nea.org/grants/47604.htm. 2002-2014 National Education Association

The archives and history committee has worked to compile, organize, and maintain records of SCASL's organizational functions over the past forty years. Yes! Forty years! Our committee is excited to revisit the journey that so many of you school librarians have been a part of. Our everchanging roles have morphed endlessly to ultimately enable students' success. The student achievement we strive for every day is now apparent globally. At minimum, we see a park visitor engrossed in their love of

life-long reading or a first generation college student seeking answers from authentic sources in order to gain a goal that once did not exist. You all, whether you started forty years ago or yesterday, have already planted a seed with your patrons. The seed of information. As the power of information comes to life, so does freedom for their lives. Thank you to all who have paved the way and to all who are just committing to one of the powerful careers in society. Thank you for being that superhero!

In support of our 40th Annual Conference March 11-13, 2015, please share any memories, milestones, and advancements in SCASL that you have seen.

Please write your note on this padlet: http://padlet.com/jlanier/4rb11xtbaibx

You may also contact the committee chair or members directly:

Last fall, SCASL launched its new website with the member clicks at https://scasl.net. This year the IT committee is continuing to promote the many features of the website and will be sponsoring a contest throughout the fall and winter. Each month (September through February) the names of the 5 most active users of the SCASL website will be entered into a drawing. At the conference, we will draw a winner who will receive a \$25 Amazon gift card to compliment all of the information they have gained from utilizing our website. (The top 5 active users will be determined by actual use of forums, circles, etc and not just by number of logins. By the time of the drawing, there will be 30 names entered. Names may be entered into the drawing multiple times for different months if the member is consistently active on the website; therefore the more active you are for a long period of time, the better your chance of winning!) When you are exploring the website, make sure that you check out all of our forums including ones for Book Awards, Lesson Plans, and Conference! Don't forget to join in on a Circle or two to get involved in a professional learning community that focuses on just the right topic for you.

The 2014-2015 Information Technology Committee includes Linda Estrich, Karen Rogers, Anne Lemieux, and is chaired by Heather Thore. We are still looking for a couple more volunteers. If you are interested, complete the Volunteer Form on the website, or email the Chair at heatherthore@anderson5.net.

Reasons Why You Should Attend the SCASL Conference

Inspiration. Let keynote speakers and session presenters inspire and remind you just how important you are to the students and teachers at your school.

Energy. Conference gives the boost you need to finish the school year and the inspiration to plan something great for the upcoming year.

High Tech Teaching & Learning is always one of the topics of discussion. Learn about a new way to use technology to reach students or make your job easier.

by Jennifer Tazerouti

Networking! Together we are better - strengthen your connection to your professional Luncheons and network by meeting other school librarians.

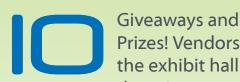

Book talks! Book Trailers! You will have so many new books to share when you get back to school.

Authors - Students and teachers love to hear the interesting tidbits that authors tell us about their books or characters. Meet authors and attend one of the authors in the round session, hear Sharon Draper and Sara Pennypacker speak at the Author Celebration Luncheon.

Celebrations-Celebrate not eating lunch at your desk and enjoy a meal with your colleagues at the Awards Luncheon or Author Celebration at the Exhibit Hall **Grand Opening**

Stay Up to Date on the latest topics - Maker Spaces, Flipped Learning, Apps, Curation, Research Methodology, Genre Shelving and more

New Tools and Resources from Vendors - You may not know the answer, but you always know where to find it! Learn about the latest helpful tools, improvements, and upgrades.

Prizes! Vendors in the exhibit hall and the prize committee work to make sure you will have lots of goodies to take home.

Visit your state's capital. Enjoy the scenery! Take one of our conference tours.

This conference is the only one in our state with professional development created primarily for school librarians.

The information and experiences vou gain from conference have the potential to positively impact your career and your school.

The Times They Are A'Changing

Beverly Hall (old chick) and Sarah Bailey (young chick)

Beverly

Librarian – Media Specialist – Library Media Specialist – Information Technology Specialist. Who are we and where are we going?

Wherever there have been collections of information, there have been people assigned to organize those collections – from the Ancient Royal Library in Alexandria to the Library of Congress, Washington, DC to the Internet Public Library in cyberspace. The format of the library collection has changed drastically, but the job description is still pretty much the same.

"Organize this information and be able to find it when someone needs it."

Whether the information is on an ancient scroll and you are one of the few citizens who knows how to read and write, or you are asked to locate primary source material for this group of eleventh grade students who are designing a website for their National History Day project, you are the "go to" guy or gal for information.

I am currently in my fourteenth year as a library media specialist. I've never had to type a catalog card, or do any inventory that wasn't electronic, but Mr. Dewey and I are old pals. Students are still amazed when they ask me for a book on... whatever...and I spout off where it is. If you've been a Library Media Specialist for any length of time, you can do the same, but you know that in our changing profession, Dewey is not the only way to go. Do you want your library to be more like Barnes and Noble? We know that if the patron can see the cover art of the book, they are more likely to pick it up for a look. Whether you label your books with stickers on the spine so your patrons can find those Halloween or Valentine's Day books they want, or you've got your graphic novels in a special area so they're easy to find, your series books are together even if the individual books in the series are written by different authors, we want our patrons to easily find what they want and need.

In my small community there are only three schools. The elementary and middle share a library media

center and there is a separate library for the high school. My partner library media specialist is in her second year of library school and her first full year as a library media specialist. In addition the library assistant at the elementary and middle school media center is in her first semester of an online BLIS degree from a school in Maine. Our experiences began in much the same way...still in library school and doing the job we are being trained to do. When a media center job opened up in my district, Sarah was hired and I was assigned as her mentor, and hopefully having someone who had gone through learning and doing the job at the same time is helpful to her.

Sarah

Librarians, no matter what setting they work in, are much more than simply keepers of books. We organize and maintain the library, manage the budget, choose and order materials, and help patrons with a variety of tasks. Patrons seek out librarians for a variety of reasons finding a good book to assistance with technology or finding information. All of my MLIS classes have been online, which is becoming a more and more common way of obtaining education. Many students still attend traditional campus classes or have a blend of traditional and online courses. I definitely appreciate being able to use technology in order to complete all aspects of my schoolwork, but I do sometimes miss the in-person and face-to-face aspects of being in a traditional classroom.

Although I have grown up in a technology-laden era where I can now carry hundreds, or thousands, of books in one small mobile device, I still prefer to read a good, old-fashioned paper book. This does not at all mean that I do not sometimes subscribe to the ebook craze (who doesn't want to always have a good book on their phone for a quick read in the grocery line or in a waiting room?), but there is just something about the feel of the pages in my hand and the way the words look on paper that I absolutely love. Plus, you can't know the joy of cracking a

book's spine for the first time and knowing that you are the first person to love that particular book if you are reading it on a computer or mobile device.

Technology

Librarians must stay up-to-date on the latest technologies and technological resources available to those in their community so that they can assist their patrons with those technologies, whether it be online resources and databases, new mobile devices, or anything else. While a librarian may not always have immediate, firsthand knowledge of how to handle and work with new resources, (s)he will most likely be able to find the answer within a short period of time by conducting appropriate Internet searches. For this reason, librarians are often the front line technology gurus in their places of employment when a coworker is having trouble with a computer, tablet, interactive whiteboard, etc.

Another aspect of technology that librarians often assist patrons with is conducting online searches for information. Many patrons do not know how search engines and databases function so they oftentimes

struggle to find exactly what they are looking for. Librarians can assist with searches by teaching patrons how to conduct appropriate keyword searches and how to evaluate data in order to ensure that it is accurate and appropriate for the user's needs.

Beverly

In the fourteen years since I started this part of my career I have seen the progression from filmstrip projectors to our Learn360 from StreamlineSC, from students writing double spaced book reports to creating book trailers, and to each student having in his or her pocket a cell phone capable of more memory and faster processing than the desktop I used for circulation in 1999. Who knows what changes will take place in the next few years, but one thing is for sure...if you are truly a finder and purveyor of information you must always keep learning and changing with the times (sing it with me now)

for the times, they are achanging.

Superhero: Pamela Williams Nominated By: Diana Carr

"Richland One's Library Superhero is Pamela Williams, Information Technology Specialist at Columbia High School. With our district's Digital Learning Environment (DLE) initiative, starting with laptops for our 9th graders, Pam has set up efficient processes and procedures for dealing with daily laptop issues so that problems can be addressed in a timely manner and students don't miss out on instruction. She is also sharing her forms and procedures

Superhero: Lori Sawyer "Mrs. Sawyer ... our CFG "Super-Heroine"!!! Mrs. Sawyer has her extranrding our CFG "Super-Heroine"!!! Mrs. Her extranrding that an far hevond other librarians!

Thank you, hirs. Sawyer, extraordinary lesson into an extraordinary one! Thank you, hirs. Sawyer, hirs. turn an ordinary lesson into an extraordinary one! Thank you, Mrs. Sawyer, feeting ordinary lesson into an extraordinary one! Thank you, Mrs. Sawyer, feeting o being our CFG Super-Heroine and for working-FASTER THAN A SPEEDING that magically being our CFG Super-Heroine and for working-Working our school that magically books an environment throughout our school that magically books our children to want to pick up new books inspires our children to want to pick up new books our children to want to pick up new books.

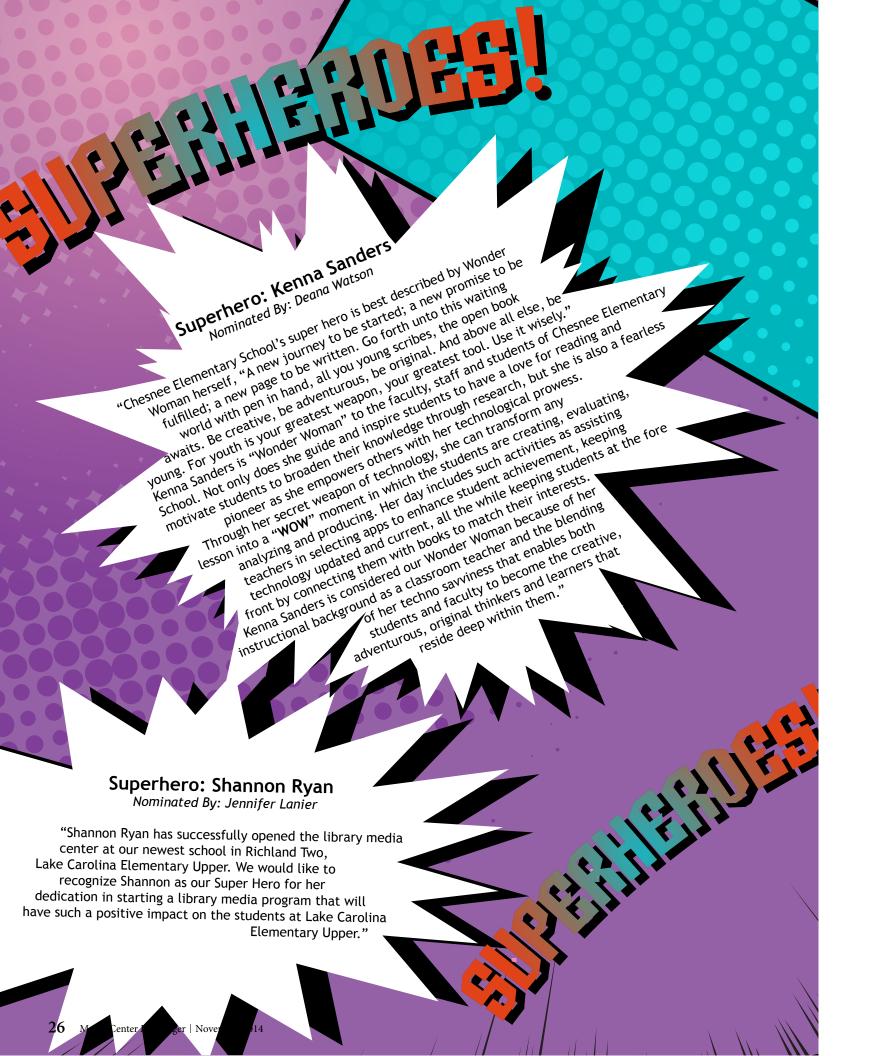

Superhero: Jessica Felker Nominated By: Jennifer Collins

"Jessica Felker is a superhero in Lexington/Richland School District Five. She is devoted to organizing and improving communication with our group of media specialists and making sure we are visible in our district. She has been at Nursery Road for several years and is passionate about cyber safety, information literacy skills, and sharing great books with her elementary school students."

Superhero: Debbie Jackson

Nominated By: Dupre Young

"Debbie Jackson, media specialist at Pelion High School, is a Lexington One superhero. Before the school year started, Debbie met with media specialists new to Lexington One to welcome them and share important information about policies and procedures."

An AIL representative will contact members who return the reply card to arrange a convenient time to deliver their benefits and review other supplemental insurance benefits that may be available.

Audit Committee Report 2013

The audit committee convened on Saturday, April 26, 2014 and examined the financial records of SCASL and find them to be correct with the following recommendations:

- Conference expenses need to be associated with clearly named accounts. Too many expenses were itemized into "Local Arrangements," such as Staff Development Scanning or Awards at Conference.
- Executive Secretary should attend audit committee meeting to discuss deposit of monies in order to verify that the designated monies were spent correctly and to provide the minutes from the executive meetings and general meetings.
